

**Architectural Installation Design Competition for
The 2025 National Games in Hong Kong**

Answers to Enquiries

Date of issue: 28 April 2025

Questions	Answers
Q37 Please advise if employees working public bodies are eligible to join the competition.	A37 Full Members of HKIA at private and public sectors are eligible to join the design competition. Consent is needed from offices or employers, as stated under competition document annex 3 clause 7. As the competition is of “Public Interest”, all full members of HKIA are encouraged to participate.
Q38 For site B2, if the plan of scale 1:50, the size will be 200mm x200mm already, then two (2) layout plans for site B2, already occupy 400mm x 200mm, which is half the A2 panel. So, together with the two (2) plans for site B1, and other technical drawings, we found that there is not much space for perspective, and other concept drawings. Would the organizer consider the TWO (2) plans to be 1:100, or the plan of scale 1:50 to be at least one instead of 2?	A38 Since site B has 2 locations, we can accept that the participants can choose the plans at smaller scale or 1 plan at 1:50, whichever the drawings can best demonstrate the idea of the proposal.
Q39 For the scale of the master layout plan: we intend to show more of the surrounding, as it shows the design in relation to the neighboring context. Would the organizer consider the master layout plan to be of scale not smaller than 1:750 instead of 1:500?	A39 Master Plan from 1:500 to 1:750 is acceptable, should the participant consider, such scale can demonstrate the best of the proposal.
